VOLCANO CROSSWORD

Complete the activity.

ACROSS

2. A type of volcano with broad, gentle slopes and built by the eruption of fluid basalt lava.
3. Mountains formed from the build-up of volcanic lava often take this shape.
5. Waves from an earthquake are known as these.
7. A volcano that has not erupted recently, but may do so in the future.
9. A vent at the earth's surface through which magma and gases erupt.
10. In 1980, this Washington State mountain gave North America its largest volcanic eruption.

DOWN

1. A volcano that is erupting or has erupted recently
2. An instrument used to detect and record earthquakes.
4. Molten rock that is found beneath the earth's surface.
6. A volcano that will not erupt again.
8. Molten rock that erupts from volcanoes.
